Focus and Job Brief

Date:		**Location:**	
Train:		**Distance of Overshoot:**	
Time:		**Crew Initials:**	

CTC

YES / NO Are you in a Controlled Location? (Ex. Mimico)
If **YES**, Rule 573(b) is applicable. The Train can reverse to re-spot the platform on Verbal Permission from the RTC. After re-spotting the train you **MUST** contact the **RTC.**

YES / NO Are you going to reverse greater than 300'? If YES, you MUST go flagging as **573 (c)(ii)**.

YES / NO Are you within 100 feet of a crossing? If **YES**, be prepared to manually protect the crossing as per **103(g).**

YES / NO Are you in a Rule **42** or will you re-enter a Rule **42**? If **YES**, Permission required from the Foreman.

Advise the NOC once move is complete.

USRC

YES / NO Have you contacted the appropriate MX RTC and obtained permission?
YES / NO Have you advised the NOC that a reverse move is required?

How far are you reversing? (See MX GOI 4.19.7 for complete procedure)

10ft or less – Reverse can be made at 2 MPH or less on Tracks 3-11

Greater than 10ft, up to 1 coach - Take up a position on the ground at the farthest point to which the reverse movement will extend, maximum speed of 5 MPH.

Greater than 1 coach - must take up a position in the locomotive/control car on the leading end in the direction of travel, operate at restricted speed.
